

An Analysis of Research Preferences and Citation Impact of the 32 Most-Viewed Research Papers Published in SERLS–Journal of Information Management

¹Dr. Vijay Uttamrao Barphe ²Dr. Deepak Kapde

Abstract:

This paper Conducted to find the Preference and Citation Impact of Top 32 Views Research Articles published in SERLS- Journal of Information Management. An overall 311 articles were published between 2015 to 2020 in six years. The covered the top 32 highly views articles from in this Journal. The study examines the association between major metrics. Data were collected from SERLS- Journal of Information Management, Dimension.ai, Google Scholar, Research gate and only one social media platforms increased attention from Mendely. The top ranked articles “Usability, Satisfaction and future expectations from LIS links social network by Badan Barman” has views 17416(6.63%) followed by the article “Indian Forensic Science Research Literature: A Bibliometric Study Of Its Growth, Authorship And Publication Patterns By J.John Jeyasekar And P. Saravanan” 15634(5.95).

Keywords: Altmetrics, SERLS- Journal of Information Management, Citation Impact, Dimensions, Social Media Metrics- Mendeley Readers

Introduction

In recent years there have been significant changes in Library and information science Research. Viz. Bbliometrics, Informatics, Scientometric, webometric and Altmetrics. Altmetrics is a sub discipline of Scientometrics. Altmetrics typically looks at individual research outputs, journal articles or databases.(Stephen,2021) The term of Altmetrics for alternative metrics and is a way to measure the impact of a articles or project by charting social media platform Viz. Blog post, Tweepers, Facebook Post, Mendely Readers. Altmetrics is a metrics and qualitative data that are complementary to traditional citation based metrics. (Stephen,2021) The study found a citation and altmetrics for top 32 Research Papers published in SERLS- Journal of Information Management.

SERLS- Journal of Information Management is founded by Dr. S.R. Ranganathan as ‘Library Science with a Slant to Documentation’ in 1964. The journal completed 50 years of publications. It is a refereed journal and is a top five LIS Journal in India and also this journal is a Indexed and abstracted in some of the databases viz. Google Scholar, Indian Citation Index, J-Gate Indexed, Scilit, CiteFactor, i-Scholar, Indian Library Science Abstract (ILSA), and also is a UGC Approved Journal. It covers all aspect of Library and Information Science viz. Management, Bibliometrics study, User Studies and LIS Education. (<http://www.srels.org/index.php/sjim/pages/view/atj>)

Review of Literature

C.Vysakh and H.Rajendra Babu (2021), Analyses the study intends to evaluate the top 100 papers of Library and Information Science. He is measure the social media presence of the top 100 Library and information science articles in the Dmensons database and majior

¹ Vasantrao Naik Arts, Comm. & Science, College, Shahada, Nandurbar

² Director, Knowledge Resource Center, Kavikulguru Kalidas Sanskrut University, Ramtek

altmetrics indicator like Google Scholar, Mendeley Readers, WOS, Altmetrics Attention Score and web citation.

Rangaswamy B.(2021), Analyzed this study to find out of the citation impact of open publishing by Tumkur University and its recognized institute contributed researcher's. And useage of web of science database, VOS viewer tool for analysis on citation impact, use SPSS Statistical Tool And Also Used Mendeley Reference Management.

Ali, Muhammad Yousuf, Gatiti Peter and Haq Ikram Ul (2021), The study of research output of the faculty and researchers affiliated to the Agakhan University Medical College Pakistan from 2010 to 2019 and analyzing published research articles. He is measure on data from use of web of science, Scopus and Google Scholar.

G. Stephen(2021), Analyses the study on to determine the top three research paper related to Covid-19 and published in 202, and this study based on altmetrics attention score.

Objectives of the Study

- To find out the altmetrics citations score for the top 32 research paper especially published in 2015- 2020.
- To analyze the majority of Views and PDF viewed research paper in Journal Website.
- To know the number of citations in the Google Scholar, Research Gate and dimension databases of top 32 Research papers in 2015-2020.
- To discover the Mendeley Reader statistics for the top 32 Research Paper published in 2015-2020.

Methodology and Data Collection

The data for the study were from SERLS- Journal of Information Management Journal as on 9th December 2021. To select the top 32 Research Papers in this journal 2015 to 2020. The research papers were sorted according to most views articles from highest to lowest. The collecting citations for each research paper from three database viz. Google Scholar, Research Gate, Dimension and one of the social media attention from Mendely Redear available documents. The study aim as a cross database and social media platform Mendely Redears database analysis and top 32 research papers was searched in viz. Google Scholar, Research Gate, Dimension and Mendely Redears site to collect citation and them data result has been displayed tabulations and analysis.

Scope of the study

The present study covers the SERLS- Journal of Information Management from 2015 to 2020 and its covers 06 volume; 36 Issue and 311 Research Paper Published in this Journal. The current study seeks to bridge this gap by analyzing the journal top 32 research paper views from the Journal of Information Management, as on 9th December 2021.

Analysis and Discussion:

Table No. 01

Year Wise Distributions of Research Paper

Sr.No.	Year	No. of Research Paper	%
01	2015	63	20.25
02	2016	64	21

03	2017	47	15.11
04	2018	48	15.43
05	2019	46	15
06	2020	43	14
Total		311	100

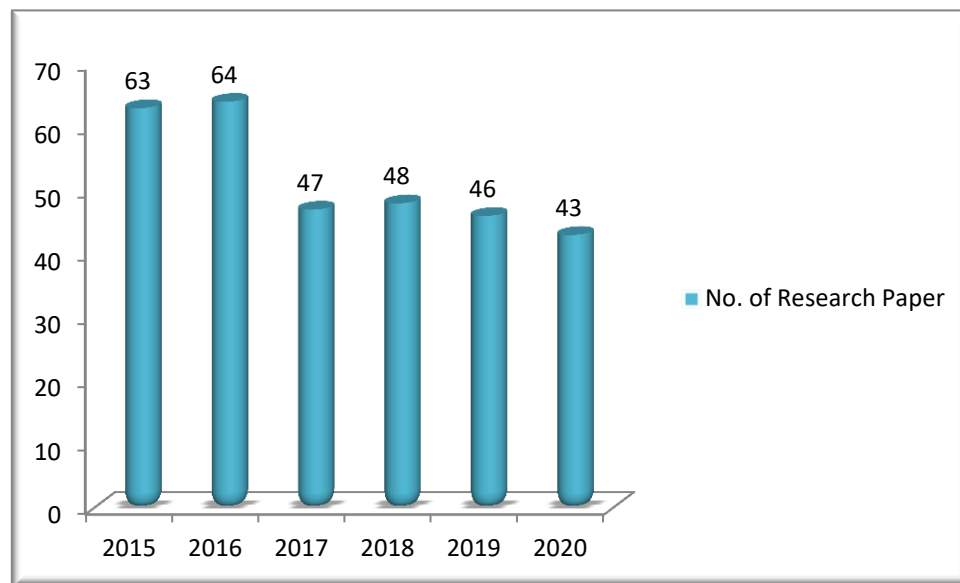

Figure 1 Year Wise Distributions of Research Paper

Table no 1 show that the year wise distribution of articles published in SERLS- Journal of Information Management. The total output for the period 2015 to 2020 during this period 311 research paper. It is observed that the year 2016 has highest number of research papers i.e. 64(21%) and lowest number of paper are during 2020 i.e.43 (14%) published in this Journal.

Table No 02

Year Wise Distributions of Research Paper Views and PDF views

Sr.No.	Year	Views	%	PDF views	%
01	2015	69947	26.65	680	19.57
02	2016	64494	24.57	644	18.54
03	2017	63057	24	726	20.90
04	2018	31456	11	858	24.70
05	2019	20824	7.93	430	12.38
06	2020	12643	4.81	135	3.88
Total		262421	100	3473	100

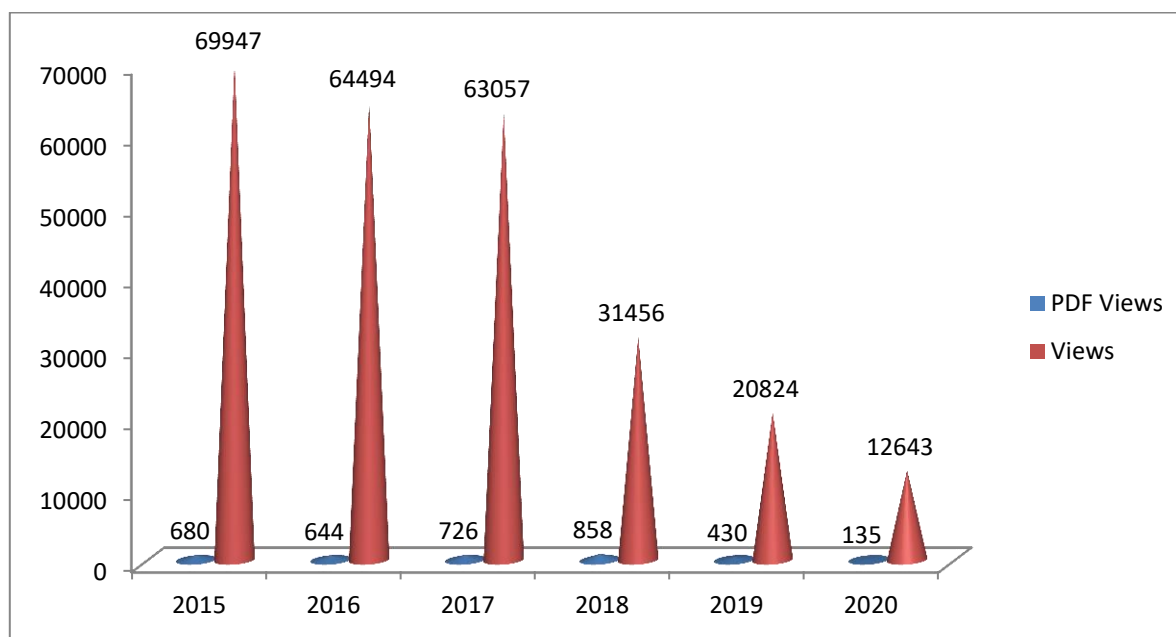

Figure 2 Year Wise Distributions of Research Paper Views and PDF views

Table no.02 shows the year-wise distribution of the Research Papers along with their views authorship Pattern. 2015 ranked first with 69947 views and the next place is of 2016 accounting for 64494, 2017 is third position; 2018 is four ranked, 2019 is Fifth Ranks and last place of 2020 accounting for 12643 views. Also table no 3 shows the PDF Views 2018 year is ranked first with 858 PDF Views, Second Rank 2017 accounting for 726 PDF Views and last place of 2020 accounting for 135 PDF view.

Table No 03

Top 32 Views Research Paper Published in SERLS-Journal of Information Management

Sr.No.	Title	Views	% N=262421
01	Usability, Satisfaction and Future Expectations from LIS Links Social Network, By Badan Barman	17416	6.63

Table no 5 shows that the articles wise distribution of the citations from different database like Google Scholar (GS), Research Gate (RG), Dimensions (DC), Mendeley Readers (MR) as well as Journal site Views and PDF Views. Out of the 32 research papers, 01 Research Paper is open access and 31 were non- open access research papers. Citations from Dimensions (DC) are lesser than Google Scholar and the Research Gate. The highest citation received with 84 citations in Google Scholar, 68 citations received from Research Gate, 13 Citations received from Dimensions and there are 53 documents in Mendeley Readers.

The highest citations received articles in Google Scholar with 10 citations is ‘Use and Awareness of Open Access Resources among Researchers: a Case Study of Raman Research Institute By M. N. Nagaraj , M. K. Bhandi’ , The highest citations received articles in Research Gate with 09 citations is ‘Indian Forensic Science Research Literature: A Bibliometric Study of its Growth, Authorship and Publication Patterns By J. John Jeyasekar, P. Saravanan’ and The highest document available in Mendeley Redears with 09 is ‘Social Networking in Library and Information Services:Current Scenario By Aslam Ansari,Mohd. Nazim’ and also the highest citations received three articles with 03 citations in Dimensions.

Table No 06

Citations Impact of Open Access Research Paper Published in 2015 to 2020

Sr. No.	Title	Citations, Altmetrics Attention Score and Source

04	Balanced Growth using Ontology-based Tantra Framework By Shreekanth Mooror Prabhu, K. N. Balasubramanya Murthy, Subramanyam Natarajan	631	152	2	4	2	

Total	2928	856	10	22	10	06
-------	------	-----	----	----	----	----

The study period is confined to 06 years between 2015 to 2020 an overall 311 research paper in this journal. Of 4 research paper were published Open Access Routes. The highest citations received articles in Google Scholar with 07 citations is ‘An Empirical Study on the Asymmetric Behavior of Scientometric Indicator for Journal: A Comparative Evaluation of SJR and H-Index By Deepjyoti Kalita, M. Sai Baba, Dipen Deka’, The highest citations received articles in Research Gate with 04 citations is ‘Knowledge Management using Ontology Based Tantra Framework for Good Governance By Shreekanth M. Prabhu, K. N. Balasubramanya Murthy, S. Natarajan’ and ‘Balanced Development using Ontology-Based Tantra Framework By Shreekanth M. Prabhu, K. N. Balasubramanya Murthy, Subramanyam Natarajan’ The highest document available in Mendeley Redears with 05 is ‘An Empirical Study on the Asymmetric Behavior of Scientometric Indicator for Journal: A Comparative Evaluation of SJR and H-Index By Deepjyoti Kalita, M. Sai Baba, Dipen Deka’, and also the highest citations in Dimensions with 03 citations is ‘Knowledge Management using Ontology Based Tantra Framework for Good Governance By Shreekanth M. Prabhu, K. N. Balasubramanya Murthy, S. Natarajan’

Findings and Conclusion

The present study was carried to top most 32 viewed research paper measure the altmetrics characteristics of altmetrics attention score viz- Google Scholar, Research Gate and Dimensions database and only one social media platforms viz. Mendeley Redars has been considered. It was found 10 research papers altmetrics score is zero and 15 research papers score is single-digit and 7 research papers are score is two-digit. Mendeley Redars considering another social media platform score is it appears that 20 research papers score in zero and 12 research papers score is single-digit.

- During 2015 to 2020 the total no 311 articles published in the SERLS-Journal of Information Management and of them 04 articles Open Access routes.
- Year wise distributions of research paper views and PDF Views think of the heights 26.65% views in 2015 and heights PDF views 25% in 2018.
- The highest citations received articles in Google Scholar with 10 citations is ‘Use and Awareness of Open Access Resources among Researchers: a Case Study of Raman Research Institute By M. N. Nagaraj , M. K. Bhandi’
- The highest citation received with 84 citations in Google Scholar, 68 citations received from Research Gate, 13 Citations received from Dimensions and there are 53 documents in Mendeley Readers
- It was found top viewed Research paper is ‘Usability, Satisfaction and Future Expectations from LIS Links Social Network By Badan Barman’ is rank1 (17416 View)
And Rank 32 is ‘An Empirical Study on the Asymmetric Behavior of Scientometric Indicator for Journal: A Comparative Evaluation of SJR and H-Index By Deepjyoti Kalita, M. Sai Baba, Dipen Deka’
- Top PDF views Research Paper is ‘An Empirical Study on the Asymmetric Behavior of Scientometric Indicator for Journal: A Comparative Evaluation of SJR and H-Index By Deepjyoti Kalita, M. Sai Baba, Dipen Deka’ is Rank 1 and Rank 10 is ‘An Empirical Study on the Asymmetric Behavior of Scientometric Indicator for Journal:

A Comparative Evaluation of SJR and H-Index By Deepjyoti Kalita, M. Sai Baba, Dipen Deka'
